USE OF IMPROVED
SEED GRAIN URGED

The use of better quality seed grain by farmers throughout the province this spring is being urged in order to maintain the high standard which Alberta crops have established in the past. Lack of care in the selection of seed, with the consequent lowering in the quality of the crop produced, will very soon reduce the demand for Alberta wheat on the markets of the world and correspondingly lower the prices received by the grower.

The remedy for this situation is largely in the hands of the individual farmer. The man who sows weed seeds has himself to blame for the lowered grading he will receive for his crop at the elevator and the damage imposed. Seed drill surveys conducted in the province by the Dominion Seed Branch indicate that the average seed put into the ground grades "rejected" according to legal standards as to the number of weed seeds present. The thorough use of the fanning mill on all seed grain will help the present and future crops by checking the spread of weeds which use valuable plant food. If a farmer is not in a position to purchase registered seed, which can be secured from the Provincial Seed Cleaning Plant at Edmonton, he can at least use a high quality of commercial seed of one of the varieties of recognized merit. This is especially

important in the case of wheat as a wide variation exists among varieties as to their suitability for milling purposes. Seed of mixed varieties or of an inferior milling wheat cannot yield the product demanded by the millers. Plump, uniform seed produces vigorous, healthy plants which keep weeds in check. Use the best seed grain you can secure. You will be repaid many times over for the extra cost involved.

Seed grain which is a mixture of several varieties will produce a crop which ripens unevenly. Some heads will shatter while others contain green kernels and the grower is penalized on both the quantity and quality of the grain he markets. Use better seed.

The experience of older provinces proves that the spread of noxious weeds will eventually drive farmers from the land. Alberta farmers can profit by this lesson and check the spread of this menace. The great majority of weed seeds enter the ground through the seed drill and the remedy is very apparent: Use the fanning mill on all seed grain.

Treatment of seed grain with formalin or copper carbonate to prevent smut takes little time and will greatly reduce the annual loss from this cause.

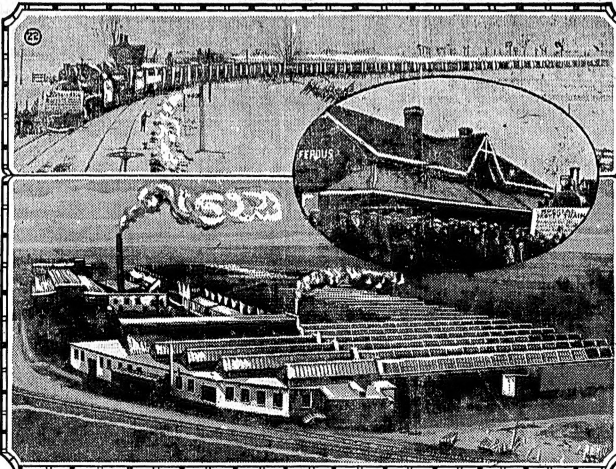

Start now with a small quantity of registered seed. At the same time use only the best commercial seed available for all your crops. You will be well repaid by an improvement in the quality and increase in the yield of your crops.

Better seed; better crops; better returns.

CHEAP ELECTRICITY

The development of cheap electrical power from centralizing plants, and the great importance of early obtaining a greater supply of power for Alberta, were stressed by R. A. Brown, superintendent of the electric utilities of the city, at the Rotary luncheon on Tuesday. Mr. Brown declared that he favored no particular method of developing cheap electric power, but

Cleaning up the West

Upper—The C.P.R. train of 35 cars carrying the record shipment of washing machines and pumps ever to be made in Canada. Lower—Plant of Beatty Bros. at Fergus, Ontario. Inset—Fergus station, the Special C.P.R. Train about to leave.

Fergus, a little Ontario town of 2,500 people is making a large contribution to the cleaning up of the West. Recently the whole community turned out to see the despatch of a special train of 35 cars, double-headed with motive power leave for the West with the largest consignment of washing machines and pumps ever to be made in Canada. There were church, hay carriers and leaders, but the bulk of the eleven thousand individual shipments were pumps and washing machines which had already been sold

that the main object was to find the one that would provide the cheapest power. In the instance of Calgary, he declared emphatically that the hydro development on the Bow River, with the Spray Lakes used as a reservoir would be the most economical.

Mr. Brown urged that the development of the proper plants on the Bow River would supply sufficient power for the entire province for many years to come. Explaining the Spray Lakes project in detail, he said that this plan made provision for the development of the Spray Lakes scheme taking over the property of the Calgary Power Co. and the construction of high voltage lines to serve Calgary, Edmonton, Exshaw, Camrose, Cochrane, Olds, Innisfail, Didsbury, Lacombe, Ponoka, Wetaskiwin, Red Deer, Camrose, High River, Okotoks, Nanton, Lethbridge, Macleod, Claresholm, Raymond, Meath, Cardston, Strathmore, Drumheller and Glendon.

The total cost of the project including \$9,583,559 for the Upper Spray plant and transmission lines, and including an estimate cost of \$4,788,647 for the taking over of the plants of the Calgary Power Co., amounted to \$14,372,206.

The revenue, based on power requirements of 1924, for power delivered at a reasonable price was sufficient to cover all fixed and operating charges, he said. He pointed out that the total cost of the plant and transmission lines should not be used as a basis of comparison with the cost of a plant that would serve Calgary only, but the whole thought and intention was to serve all the cities and towns in Alberta by a provincial hydro-electric scheme.

Mr. Brown, referring to the report prepared by Vernon Pearson and John Hadden for the provincial government, said that both these experts had expressed themselves of the opinion that, under the conditions existing in this province, power could be obtained from the Spray Lakes development much cheaper than from other sources considered.

The speaker described the location of the Spray Lakes and the methods by which their reserve of water could be converted into power by a series of plants on the Bow River. He based the opinion that such development was warranted because the estimated amount of power that would be used by 1930 by all the towns and cities served would amount to 183,000,000 kilowatt hours. This opinion was founded on estimates made of progress and development during the past ten years.

"We estimate that the peak load for 1930 will be 67,000 horse-power, and that the kilowatt hour consumption for 1935 will be 230,000,000 kilowatt hours," Mr. Brown declared, and he added that by 1940 the full capacity of the plant would be used.

Dealing with the use of electrical

HAD PAINS IN BACK
COULD HARDLY WORK

Mrs. Richard Lay, Breckenridge, Colo., writes:—"I used to have such pains in my back I could hardly do my work. The worst was my washing when I had to bend over the tub."

"I tried a great many remedies, but they didn't seem to do me much good. A friend of mine had used Doan's Kidney Pills and told me how much good they had done her. I only used them a short time and found a great change."

Doan's Kidney Pills do not act on the bowels and if a laxative is needed we would recommend the use of Milburn's Laxative Pills, 25c a box at all dealers.

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. M. Milburn Co., Limited, Toronto, Ont.

power in other sections of the Dominion, the greatest pointed out that Quebec consumes 44.3 per cent of all the electrical power developed in the Dominion, and that Ontario comes second with 37.5 per cent. Alberta came last in the order of electrical energy used with a total consumption of only seven-tenths of one per cent.

"You will note that Quebec and Ontario combined used more than 81 per cent of the total already developed in Canada," Mr. Brown continued. "Reliable statisticians advise us that more than 80 per cent of all the monies invested in Canada for industrial purposes are invested within the boundaries of those two provinces, and that approximately 85 per cent of our total population lives within their boundaries. Does not this indicate that an abundant supply of electrical energy is a real attraction for capital, industry and population?"

The citizens of Calgary, the city commissioners and the city officials have never had a more important or far-reaching problem to solve than the future supply of our electrical power requirements. "We have, during the past ten years, consumed in Calgary alone 466,832,650 kilowatt hours, which has cost the city \$4,539,34. We estimate that during the next ten years we will consume 900,000,000 kilowatt hours, and the cost will vary from \$5,000,000 to \$6,000,000. The problem is so important as to call for such government action as will make available for development all resources that will assist in the production of an ample supply of reliable electrical energy at reasonable cost."

Mr. Brown concluded his address by reading a portion of the 1927 report, prepared by W. W. Cory, deputy minister of public works, in which the opinion was expressed that modern economic development is becoming increasingly dependent upon the supply of power to operate countless machines, and that the possession of

Another body of sportsmen are flocking to the mountains and to the good places in winter as well as summer. The Appalachian Mountain Club, of Boston, picked the best period of the winter season to spend a week in the Laurentians mainly devoted to ski-ing, but with sleighing, dog-mushing and tobogganing thrown in. It was the first time they had ever visited this district in winter and they are going to repeat it.

Resignation of Colonel Walter Maughan as Canadian Pacific Steamship Passenger Traffic Manager has been followed by the appointment of William Baird, who was assistant European Manager of the Canadian Pacific Railway in London, Eng. Mr. Baird, whose appointment effective March 1, joined the Allan Line steamship company at Glasgow as junior clerk in 1905 and came into C. P. service when that company took over the Allan Line in 1916.

Bee keeping in Saskatchewan made marked progress in 1927, there being an increase of 45 per cent in the number of colonies over those of 1926 and an increase of 101 per cent in the 1927 honey crop over that of the previous year. The number of spring colonies in 1927 was 2,805 which increased to 6,042 by the fall count. The production of comb honey for the year was 64,042 pounds and of extracted honey 436,922 pounds, making an average production per colony of 148½ pounds.

Airplanes are now being used to herd vast numbers of reindeer in the big Arctic stock farms, according to Ralph Lomen, pioneer of the reindeer industry of Alaska. "It's a new idea and it's not being practiced regularly, but herding by airplanes seems feasible," said Mr. Lomen. "Our head herdsman went out recently and in two hours accomplished what would otherwise have required a week with six men. There is room for 12,000,000 reindeer in the northern tundra of Canada and such a herd would be worth \$50,000,000. It could be done in 50 years if Canada started now in a modest way."

WHERE WOMEN MUST BE CAPABLE

(By Lady Rodney)

I have been asked two amusing questions about my life on a ranch in Alberta. One was "Do you pay calls?" and the other, "Do you ride round your farm on horseback?"

Actually, my French-Canadian neighbors and myself are both far too busy for special amenities. Yet the settled West is not on the other hand, so wild and woolly that motor-cars and roads are unknown and journeys made romantically on horseback. At Lamouroux we are five miles from Fort Saskatchewan, which is more up to date than the average small English town and from which provisions of all kinds may be had.

The two-storied wooden house—there are very few brick buildings in the West—which we built eighteen months ago has central heating and an electric motor. This runs the washing machine, electric iron, water-pump and cream separator. From the house we can give the butcher orders over the telephone. But—we ranchers' wives have little time for calling and lawn tennis.

Canada has been called a working man's country. A fact that is not so frequently pointed out is that only women who know how to work are of any use there. A woman's life on a ranch is less attractive than a man's, and "the open-air life of the prairie" is usually staged, for her, between the four walls of her house.

Much depends on her, however. Men working on the land in the brief, hectic season from April till threshing time in October must be fed well to keep up their strength. The planning and cooking of the meals, the household "chores," and probably the care of the children and various duties are as a rule carried on almost single-handed by the rancher's wife.

Since September I have had only one fifteen-year-old girl to help me, and only for one brief interval during my nine years in Canada have I secured a cook. Naturally, unless highly skilled help is forthcoming, it is best and quickest to do the work oneself—even if it does mean cooking for eight people as I have had to do. Many untrained English women who arrive at Edmonton remain unemployed because housewives are too busy to teach novices.

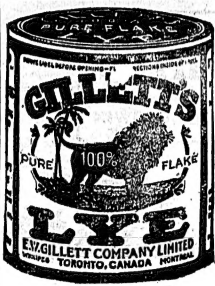

Breakfast at 5:30 a.m. at threshing time, 7 in summer, and 8 in winter, starts the day. I find it can keep to English meals in Canada; though I have inevitably learned to make pumpkin and lemon pies. Corn on the cob, the only item that differs from home products, grows in the vegetable garden. Plenty of green vegetables in summer is the golden rule there as in England.

It is important to plan meals carefully for 3 or 4 days in advance—not, as the more unimaginative English housewife in Canada is apt to do, confining oneself to eternal roast beef and beefsteak, but emulating the French-Canadian women's example of tasty ragouts and economically made-up dishes.

Nurses being as rare as cooks, the rancher's wife has to know something about the diet for children, as well as for grown-ups. Too often the babies are fed up on tea and arrowroot biscuits, and the children allowed to stay up until their parents go to bed. Yet with a little knowledge it is simple enough to get plenty of bones for soups and to give the children (tasty, nourishing vegetable soups from the time they are 10 or 11 months old).

The intricacies of butter making and work in the garden are other branches of Canadian housecraft to be mastered. With all these claims on one's time and attention, it is imperative to plan the day methodically if there is to be a quiet hour's leisure in the afternoon.

The most unlikely people sometimes make a success of Canadian life. One man I met said he was a clerk, born and bred in London; yet he had a nice house and a well-stocked, well-managed ranch. But I cannot too strongly urge every woman who wants to go to Canada to master the art of house-keeping first. A rancher's wife has no

time to be incompetent.—London Daily Mail.

Lord and Lady Rodney have a mixed farm near Fort Saskatchewan, and have just returned to London for a holiday.

FARMERS ADVISED TO TEST SEED GRAIN

Warning is being issued to farmers at the present time in connection with the germinating quality of the grain which they propose to use for winter seed. Where grain has been exposed to the weather over winter as has happened this year in some sections of the province, it is particularly advisable to secure a germination test on this grain before it is used for seed.

A one-pound sample of grain should be sent to the Dominion Seed Laboratory, Calgary, where the test will be made free of charge for farmers. Satisfactory germination tests can also be made at home by planting two lots of 100 seeds each about one inch deep in boxes of soil or sand. The tests should be kept fairly moist and at living-room temperature for about twelve days. Note should be taken of the number germinating in six days which indicates the vigor of germination, and the number germinating in twelve days which indicates the total number of viable seeds. It is strongly recommended that germination tests be conducted as early as possible in the spring on all grain intended for seed.

Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Good Crop Harvested on Lethbridge Northern

An average of 33.7 bushels of wheat per acre was produced on lands in the Lethbridge Northern Irrigation district in 1927, the total being 1,997,735 bushels on 60,161 acres, according to the annual report of James Pike, Lethbridge Northern. Colonization manager, recently made public by the government.

1927 Coal Production Sets New Record
Alberta production of coal during 1927 has established a new high year record for the province, according to the report of the Mines Branch, presented to the Legislature during the past week. The total output of coal for 1927 was 6,936,780 tons, which is 27,857 tons greater than the previous record year, 1926, when 6,908,923 tons

(Original letter on file)

1927 are valued at an average of \$28 per acre as compared with \$26 per acre in 1926, according to the Dominion Government Crop Report issued from Ottawa on February 24th. This valuation includes both improved and unimproved lands, as well as dwelling

houses, and farm buildings. This report gives an average for all Canada as \$38 per acre as compared with \$37 in 1926, and \$38 in 1925. The 1927 figures for the other Provinces are given as follows: British Columbia, \$89; Ontario, \$66; Quebec, \$67; Prince Edward Island, \$41; Nova Scotia, \$37; New Brunswick, \$30; Manitoba, \$27 and Saskatchewan \$26.

Big Demand for Fur Farm Leases

Some eight hundred individuals in Alberta who intend to start fur farming on slough and lake front lands owned by the Dominion Government are now waiting for final action at Ottawa, it is announced by Hon. George Hoadley. Negotiations which have been going on for some time between the Provincial and Federal Governments as to the basis upon which licenses of these lands will be given to the Province by the Department of the Interior, have now reached the point where applications for sub-leases to provide operations are being considered and it is expected that this step will be taken shortly.

SPORTS

LEDCU WINS DRIARD
SHIELD FROM WETASKIWIN

For the first time since it was donated by Mr. Smith in 1927, the Ledcu shield left Wetaskiwin Thursday night of last week, when two rinks from Ledcu, skipped by Messrs. Jensen and Joelin "brought home the bacon." The game, which calls for fourteen ends, was played in the afternoon, the Ledcu rinks being opposed by rinks skipped by Messrs. A. A. Ellis and J. S. Poole. The total score was 18 to 36, the scores for the games being: Jensen, 25, Ellis 18; Joelin 16, Poole 18.

In the evening a try was made by the same Ledcu rinks for the Ash cup, the opposing Wetaskiwin skips being Taylor and Graham. The total score in this competition was 26 to 18, both of the Wetaskiwin rinks winning out.

LONE RIDGE

On Friday evening last a very enjoyable surprise party was held at the home of Mr. and Mrs. A. C. Sproule of Brightview. About 60 persons gathered to celebrate the 20th anniversary of Mr. and Mrs. Sproule's wedding. The secret had been splendidly kept and the visit was a complete surprise. However, Mr. and Mrs. Sproule rose to the occasion and the visitors were cordially welcomed. To mark the occasion, a nice assortment of aluminum and Pyrex kitchen utensils were presented to Mr. and Mrs. Sproule by the families represented at the gathering. Mr. H. A. Martin, formerly a neighbor, made the presentation in a neat and witty speech, assuring Mr. and Mrs.

Sproule of the high esteem in which they are held by the community. Mr. and Mrs. Sproule suitably responded. The evening was spent very enjoyably in singing and music. Mrs. E. E. Sparks officiating at the organ, and Mr. H. A. Martin giving some real old classical (?) numbers on his violin, which were much enjoyed and heartily applauded. As the time for refreshments approached, Mr. and Mrs. Sproule were blindfolded and seated at a centre table, when a splendid throaty wedding cake, prepared by Mrs. H. A. and Mr. and Mrs. E. Price, was placed before them, affording a further pleasant surprise when their eyes were uncovered. Refreshments, and a piece of the cake, were then partaken of and the evening brought to a close by singing "God be with you till ye meet again," and "Auld Lang Syne."

The Brightview Ladies' Aid Society will give a concert and hold a sale of work at Lone Ridge Hall on March 16th. A good program will commence at 8:30 p.m. Everybody cordially invited. Come yourself and bring your neighbor.

The many friends of Mrs. Wm. Maxwell were glad to learn she was able to leave the hospital and is convalescing at the home of Mr. and Mrs. S. P. Schell. We wish her a speedy return to health and strength.

A well attended meeting of the Lone Ridge U.F.W. was held in the Lone Ridge hall on Thursday, March 1st. Beside the regular business of the meeting, Mr. Rimmer read an article on the "Question of Credit." Mr. Sparks also addressed the meeting on the importance of clean, pure seed grain. It was decided at this meeting to hold a banquet and entertainment on Thursday, March 22nd.

LONE RIDGE U.F.W.A.

A very enjoyable and well attended meeting of the U.F.W.A. was held at

the home of Mrs. S. Alton Thursday, March 1st.

A year ago the roll call was answered by each member telling the place of their birth. This year they were asked to add to it a little further by giving just a little description of the place. This proved as interesting as a book on travel, with the added charm of a personal touch.

Our first speaker took us to Nova Scotia and showed us a picture of the dancing waves and fishing boats, also mentioning the names of famous men born near her home.

We then visited a wonderful garden in Iowa and a home which left tender memories never to be erased. We travelled from there to Kansas and saw the picture of a little log shack and beside it were noble walnut trees and wild grapes in profusion, "everything in tune with nature." The speaker made a return trip to the place in 1908 and the scene had changed, some of the beauty had gone, but there was greater prosperity.

Sweden was our next country to visit and we first visited a rugged part of the country where a river ran at the foot of a lofty mountain, very beautiful in a wild way, but unfit for home making, as it was impossible to garden or raise vegetables for the home, and it was finally left to nature to work her will.

We dwelt a while longer in this country and visited a log shack, a real home nest. There we saw some mischievous boys in a melon patch, and the speaker told how the one who was later to become her lifelong partner cheated the others out of the stolen melons.

Schooling in those days and in that place did not take up too much time, as it was only compulsory to attend 40 days in one year.

We visited one other place before leaving this charming country and visited a family where 12 gathered around the table. In close proximity to this home was a lake, and a boat always ready to ride its waters. A soothing peaceful scene.

Our next member took us to the borders of Lake Ontario and found the climate there more equable and we listened to accounts of all the lovely trips one could have on the pleasure boats at Kingston. We also visited Brewster's Mills in the lovely Ontario. There were mills here for making all kinds of woolen goods and people in the vicinity could send their own yarn to be made up into flannel for dresses, also we were told how favorable the climate was for growing greengages and various fruits.

Liberty, Missouri, was the homeland of one member. This place figures largely in tales of the Civil War, and those who have read or seen the play "The Covered Wagon," will be reminded of these tales of adventure.

We then took a trip across the water to Bonny Scotland and visited a log shack in Aberdeenshire. A burn beside the cottage was teeming with fish, which besides helping with the larder, gave the family many "happy hours." This was a domestic scene, with cows, chickens, turkeys, ducks, also fruit trees and a lovely garden.

We last of all visited a busy city in Yorkshire, England, famed for its cutlery and armaments. I think everyone has heard of Sheffield cutlery. We have dated hither and thither about the globe not caring for the cheapest or most direct way, as it was merely for fancy, and here we are back to Lone Ridge, a group of women banded together from various parts of the world for social and economic betterment, but the writer of these notes saw a tender look as the members gave their little memories of home, which reminded her of these words of the poet:

"Breathed there a man with soul so dead

Who never to himself hath said

This is my own, my native land."

The next meeting of the U.F.W.A. will be held on April 6th, when there will be an address upon gardening and other things. Look out for further notice.

W. C. T. U.

The regular March meeting of the W.C.T.U. will be held in the United church, Thursday the 15th, at 8:30. An intellectual treat is in store for a Wetaskiwin audience when Mrs. Gordon Wright of Toronto, national president of the W.C.T.U., visits here around April 16th. Mrs. Wright, who is greatly appreciated as a public speaker, not only in Eastern Canada, but across the water, where she helped in the Scottish local option campaign two years ago, is a sister of the Hon. Newton R. Rowell, K.C., one of Canada's brilliant sons so well known to all.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times:

Dear Sir:

Permit me a few lines in your valuable paper to point out to the farmers of this district that horses are coming back stronger than ever. Good heavy teams sold at \$600 on the Edmonton market this spring, and market quotations show that eastern prices are much higher, and the likelihood is that the prices will go up.

It looks as if horse breeding will be a profitable business for some time, as there have been very few horses raised during the past few years. The present horses will soon be pensioned off, and young stock must take their place. My advice would be to get into the business and form a Horse Breeders' Club along the lines suggested by the federal government. The government will pay one-third of the stud fees to clubs formed. This matter was attended to at once, and the club formed before March 31st, as the government will not give its assistance after that date, each year.

If you are in favor of this proposal, write or phone me, and I will endeavor to get a government man here to form the club.

Yours truly,
T. O. FELLAND,
Phone R668, Wetaskiwin.

C. H. RUSSELL IS SELECTED

(Continued from Page 1)

As all funds available will be necessary for the purchase of new books, the two officials named will act with remuneration.

Mr. Bellamy suggested two committees be formed, a finance committee and a book committee. It was left to the chairman to appoint these and he named Mrs. Wallace as chairman with Mr. Tanner on the book committee, and Mr. Bellamy chairman with Mayor Montgomery on the finance committee.

It was agreed that the regular meeting night of the Board should be the first Friday in every month at 8 p.m. in the council chamber.

To start the Library and defray the cost of necessary printing, etc., a motion was passed that a charge of 25c be made for each membership card to those joining the library.

As soon as the book committee have classified and numbered the books and all arrangements made for the system of the lending department completed, which will take some time and a great deal of work, it is proposed to open the library on Tuesdays and Thursdays from 4 to 5 and on Saturdays from 3 to 5 in the afternoon and 7 to 9 in the evening.

Books are to be loaned and may be kept for two weeks, after which a fine of one cent per day that it is overdue will have to be paid.

Reserve books and others the book committee decide upon, will only be allowed out 7 days.

The scholars and students under Mr. Tanner and his staff at the schools, have done splendid work in collecting over 260 books, which with the 600 odd now received to date, makes a total of over 860. More books are still required and if any who have books they can spare will bring them in or phone the City Office so that they may be called for, the same will greatly help in building up a magnificent collection to start with.

As some most essential books will have to be purchased and no funds have been collected as yet, it is now quite an order for any of the live organizations in the city to kindly offer financial assistance, which will be greatly appreciated.

The Elks and the Ladies of the Royal, the Kiwanis and Kiwanis Queens, Daughters of the Empire and Women's Institute and all other such admirable organizations are herewith appealed to, to have their names enrolled in this community work.

Mr. E. L. Hull, the City Librarian of Edmonton Public Library, is coming to address the Kiwanis Club and a citizens meeting on Tuesday evening March 27, in St. Andrew's Presby-

terian church. His subject will be "Books, Authors and Libraries." Be sure and keep the date free for this interesting and educational address, which none should miss.

MASSEY-HARRIS CO. HOLD
SUCCESSFUL TRACTOR SCHOOL

In spite of the cold weather nearly sixty farmers attended the Wallace Tractor School held by the Massey-Harris Co. at Fred Walling's warehouse on Monday. Those in attendance from the company were Mr. Lebeau, manager at Edmonton, Mr. D. P. Ellerton, Mr. Fitzgerald and Mr. Ed. Dewar. Mr. Ellerton opened the meeting and told how his company decided on handling the Wallace Tractor. He also announced that the Massey-Harris Co. had bought out the J. I. Case Plow Co. manufacturers of the Wallace Tractor. Mr. Fitzgerald then gave a very interesting talk on how the tractor was built and fully explained all of the different parts and attachments. Mr. Lebeau then spoke on the full line of power machinery that is being built by his company and the new additions being added to the line this year, namely, new types of plows, 10 ft. power binder and all steel Massey-Harris separator. The meeting was then thrown open for general discussion, after which a practical demonstration was given.

COAL LAKE

The Coal Lake Band have been very busy this winter practicing a number of beautiful new selections. The band, consisting of about 30 players, has been in existence three years and has made wonderful progress. The band will give a concert in Millot, March 9, at 8:30 p.m. It will certainly be an unusual treat to hear this band play. A dance will be given after the band concert, with a splendid five piece orchestra in attendance.

USE ONLY THOROUGHLY CLEANED AND GRADED SEED

(Experimental Farms Note)

There could be no better proof that thoroughness in cleaning and grading seed grain is worth while than that which lies in the fact that the use of high quality seed is becoming more and more a general practice among growers.

The principle of cleaning and grading seed has many times been shown to be sound. The practice of cleaning and grading entails little labour and relatively little expense in equipment. The use of good seed then is a matter which the good farmer cannot overlook as a means of producing larger and better crops.

The fanning mill, which was once referred to by someone as the farmer's "plant breeder" helps to maintain the high quality of a crop as well as to offer a means of keeping down weeds.

The work ordinarily done by a fanning mill consists first of removing the light kernels and some trash with a blast of air from the fan, second with a complete set of sieves the smaller seeds can be separated out, as well as miscellaneous material consisting of

grain of other cereal crops, if such be present.

With the coming of central cleaning plants; many farmers are able to take their grain to be cleaned and graded at comparatively small cost. Those who are fortunate enough to live within hauling distance and do not care to purchase equipment of their own, can make use of the central plant. These plants of course, are necessarily somewhat better equipped to handle large quantities of seed in a short space of time and also to make a more thorough job, particularly of removing mixtures of different kinds of grain.

None of the cereal crops requires cleaning and grading so much as do oats. The nature of the crop, containing as it does large numbers of small kernels, makes it all the more important to use the fanning mill very generously with this grain.

Dirty grain which may give the appearance of being very unsuitable for seed may often be cleaned and graded into an excellent seed sample. It is quite often better economy to clean up a dirty lot of home grown grain than to purchase seed elsewhere. There is always the danger of introducing other varieties as well as "weed strangers" when seed is brought in from another source unless it is bought under certification.

Too much care cannot be taken nor too much attention given when it comes to preparing the seed for spring sowing.

When Sourness, Pain and Bloating Follow Every Meal

Make This Simple Test for Swift and Sure Relief

To quickly prove 90 per cent of Stomach distress is absolutely unnecessary and that you can eat and enjoy most any food you really want—get from your druggist some Bisurated Magnesia (powder or tablets) and take a little after your next meal. This is a simple, inexpensive test that can be depended upon to prove its value in less than five minutes. In most instances, relief comes instantly. Bisurated Magnesia is a pleasant, harmless, non-laxative form of old-fashioned Magnesia that, when taken after meals, cleanses, sweetens and neutralizes the dangerous acids that cause most stomach troubles. One day's trial will convince you—ask your druggist for Bisurated Magnesia today.

MILLET WHEAT POOL MEETING

All Wheat Pool members and others interested are again reminded that the meeting to complete the organization of a Wheat Pool Local at Millet will be held in Pinyon's hall at 2 o'clock sharp, on Saturday, March 10th. This is a very important meeting and it is expected that further information re the question of a Pool elevator at Millet will be to hand. Everybody welcome. Please be on time.

Temperance Lecturer: "Yes, my friends, drink is a curse. If all the public houses were at the bottom of the sea, what would be the result?" Voice: "A lot of people would be drowned."

MILLET LOCAL NEWS

Spring is here—not yet!

Miss Yerna Rupert spent Sunday at her home.

Mrs. S. C. Moon spent Monday in Edmonton.

Many of the side-roads are in fair condition for cars.

Mr. R. Booth has sold his draying outfit to W. Velow.

Mr. T. H. Wells was a passing visitor to Millet on Thursday of last week.

A very jolly time was spent at the Curriers' dance on Thursday evening last.

Mr. J. R. K. Graham has been confined to his home through illness for the past week.

A very enjoyable card party was held at the home of Mr. and Mrs. E. Jordan on Friday evening.

Mr. and Mrs. V. E. Thompson of Larchtree, spent Sunday evening at the home of Mr. and Mrs. Higginson.

Mrs. Robert Young returned from Wetaskiwin on Friday, where she had spent several weeks through illness.

Mr. and Mrs. H. Phillips, Miss Doris, Mr. and Mrs. M. Nelson and little sons were guests of Mr. and Mrs. H. Arnold on Sunday afternoon.

Mr. Clyde of Edmonton, was a visitor to Millet on Friday and made a few calls in connection with the Dominion Government Poultry Department.

A large number from Millet attended the dance given in the Coal Lake Community hall last Thursday evening. A real good time is reported.

Mr. and Mrs. A. McLean of Provost, who have been spending the winter in Ontario, spent the week-end with Mr. and Mrs. Higginson while en route for home.

Mr. Watson of Edmonton, arrived on Monday to take over the management of P. Burns Co. plant here, succeeding Mr. Roy Sheppard, who has been transferred to Stettler.

A Five Hundred card party was held in the Community hall on Tuesday evening, under the auspices of the Young People's Club. A very pleasant evening was spent.

On February 27th, Mr. and Mrs. Olaf Rude and family returned to their home near Delburne, after spending a very enjoyable week visiting with relatives and friends of West Liberty and Wetaskiwin.

Delegates from Millet United Church Associate Society of the W. M. S. to the presbytery in Wetaskiwin on Friday are: Mrs. L. R. Macdonald, Mrs. E. J. Olesen, Mrs. M. Moffett and Mrs. Graham.

***Do not forget the U.F.W.A. card party to be held at the home of Mr. and Mrs. F. J. Higginson on Saturday evening, March 10th. Five hundred will be played and playing will commence at 8:30 sharp.

There will be an old-fashioned social at the home of Mr. and Mrs. J. B. Christie on Friday evening, March 23rd. Conveyances will leave the minister's residence at 7:45. Fuller announcements later. Reserve this date.

Mr. and Mrs. R. Sheppard left on Tuesday afternoon by motor for Stettler where Mr. Sheppard has been appointed manager for the P. Burns Co. creamery at that point. Mr. and Mrs. Sheppard will be greatly missed by many Millet friends.

Mrs. Silas Clark of West Liberty, was agreeably surprised on the occasion of her birthday on Thursday last, when a number of her friends gathered, bringing greetings, and to present the gift of a linen table cloth. The presentation was made by Mrs. H. Phillips, Mrs. Clark making suitable reply. Those present were: Mrs. J. C. Dowdell, Mrs. J. Haines, Mrs. H. Arnold, Mrs. E. G. Dunn, Mrs. A. E. Dowdell, Mrs. W. Hesley, Mrs. C. E. Scharff, Mrs. H. Phillips, Mrs. T. Moonen and Mrs. A. Cartier. At the close of the happy occasion a delicious lunch was served.

MILLET ALBERTA

THINK IT OVER!

Often the man who falls in life complains thus: "The world is unfair. Its honors and riches go to him who ruthlessly pushes himself forward, rather than to the one with real ability."

In these very words he has told the cause of his failures and has suggested, at the same time, the only remedy. For ability, unless it is halted forth, harnessed and put to work, must forever remain nothing more than a mere probability.

Things which cannot be seen or felt by the people of the world have no reality, no existence.

The light hidden beneath a bushel casts no radiance, and in the sight of the world, is darkness.

Gold is valueless until labor digs it up and puts it to a useful purpose. The diamond is worthless so long as it is hidden in its native clay. The pearl lying on the ocean bed or enclosed within the mollusk's shell does no one any good.

And so it is with merit; if inactive, it has no place in the world's work.

Moral: Do a little pushing on your own account, for the world must know what you are and what you can do before it can avail itself of your abilities or talents. And the world is very apt to take you at your own rating.

TO STAGE A PLAY

The Millet Trail Rangers and On-away C.G.T. Group met in the United church on Monday evening, where they made arrangements for entertaining at a play called "Aunt Susan's Visit." The characters being taken as follows:

Aunt Susan—Irene Anderson.
John Thomas Tibbs—Howard Olesen.
Mrs. John Thomas Tibbs—Addie Gray.

Rebecca Jane—Gladys Kerr.
Alice Mary—Ruth Wright.
The Hon. Samuel Smith—Alex Kerr.
Guy de Marchmont Cobb—Clayton Carney.

Mrs. J. Highborn—Edith Hissup.
Mrs. Linda Suggs—Arpa Myers.
Madame Pauline Wiser—Blanche Van Valkenburg.

Mrs. Tibb's Maid—Velma Henry.
Mrs. Jenkins—Margaret Goin.
Miss Redlip—Mary Gray.
Mrs. Sedden—Jean Ross.
Practice will shortly be in progress.

LUTHERAN SERVICES

Sunday, March 11th, 10:30 a.m. in the Community hall at Millet. Rev. C. Thies of Edmonton, will speak on the 126th Psalm. Services will be in both languages.

W. C. EIFERT, Pastor.

Pains in the Heart and Nervousness

Mrs. Bobt. M. Shirley, R.E. No. 2, Chipman, N.B., writes—"I cannot recommend Milburn's Heart and Nerve Pills too highly."

"I had been bothered with pains in my heart and nervousness for some time, yes, for years, and the least little thing would put me on pins and needles."

"I tried a lot of different medicines, but it seemed to make no difference. I even went to my doctor, but all he said was that I needed a rest, but I didn't as I only had one child three years old and she didn't require much care."

"Last winter while cooking in a lumber camp the foreman told me to try

so I got a box and before it was half taken I found that my nerves were beginning to quiet down, and the pains were all gone from my heart, and I could lie down and go to sleep without any fear."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MILLET UNITED CHURCH

Phone 154.

ST. NORBERT'S CATHOLIC
Rev. Father McClellan, Parish Priest
Mass and Catechism classes every second Sunday.

HILLSIDE

Mr. H. Marr has purchased a tractor.

Mr. W. Pritchard of Edmonton, is visiting his sister, Mrs. E. R. Hoskins.

A very interesting debate will be held on Friday evening, March 16th, between a team from the U.F.A. and U.F.W.A. The U.F.A. will take the affirmative. The subject is "Resolved that the present school curriculum used in Alberta is satisfactory."

Mrs. R. C. Young, who has been undergoing medical treatment in Wetaskiwin, is home again much improved in health.

Mr. Lloyd Marr reports having another 4 year old registered Shorthorn passing the R.O.P. test.

Beth Howes of Porto Bello, spent Friday and Saturday in the district.

T. H. Howes has acquired a fine up-standing registered Red Poll calf from Morrin, Alberta. We understand that this is from a very high producing dam.

The hat social and concert held by the U.F.W.A. on Friday last was a great success. A crowded schoolhouse seemed to enjoy the program immensely. Mr. Leslie Marr acting as auctioneer, succeeded in raising \$60.30 from the sale of hats and the photograph quilt.

The ladies wish to thank all those who supported them in making the affair such a success.

The regular meeting of the Junior U.F.A. will be held on Saturday evening, March 17th, at the home of Esther Howes.

Trade with the merchants who advertise in this paper.

FIRST LUTHERAN SERVICE IN MILLET

Sunday, March 11th, will mark the beginning of Lutheran services in Millet. There are about fifteen Lutheran families in Millet and vicinity and many of these have expressed their desire of having regular services. It is the plan of the pastor to conduct the services at regular intervals and the definite dates will be announced from time to time.

On Sunday next, Rev. C. Thies, superintendent of missions, will occupy the pulpit, while Rev. W. C. Effert of Leduc will have charge of the work in future. Rev. Effert hopes to start an active Sunday school in the very near future.

All Lutherans and all such who have no church connections are cordially invited to the services.

First Motorist: I have driven a car for four years and I've never yet run over anybody.

Second Motorist (disgustedly):—Why don't you quit trying and hire a chauffeur?

ANGUS THEATRE

FRIDAY, 8 P.M. SATURDAY, 2:30, 7:30 and 9:30 P.M.

FRED THOMSON with SILVER KING in
"THE PIONEER SCOUT"

The famous western star is soon as a fearless scout who braves danger to hunt, pioneers over treacherous wastes, that they may build new cities in the new country of their dreams.
Comedy and Review

MONDAY, TUESDAY, 8 P.M. March 12 and 13

NORMA SHEARER with GEORGE SYDNEY in
"THE LATEST FROM PARIS"

Beautiful Norma plays the part of a hard-bitten traveling saleslady who believes "that all's fair in love and business." She manages to combine the two in a way that will keep you entertained at all times.
Comedy and News

WEDNESDAY, THURSDAY, 8 P.M. March 14 and 15

RIN-TIN-TIN in

"A RACE FOR LIFE"

Rin-Tin-Tin has never made a better picture than this. It is a horse-racing story abounding with thrills and giving Rinty ample opportunity to display his sagacity.

ALSO LOCAL TALENT NIGHT (WEDNESDAY ONLY)

A number of local artists will be seen on the stage in a variety of acts.

SPECIAL NOTICES

A meeting of the Norwegian Lutheran Ladies' Aid will be held at the home of Mrs. L. Jordhoy, on Thursday, March 8th, at 3 p.m.

***Fred Thomson and his wonder horse Silver King, will be seen at the Theatre on Friday and Saturday of this week in "The Pioneer Scout."

***The new and finer Oldsmobile will be on show at Ed. Reynolds Auto Service on Tuesday, March 13th.

***The Catholic Women's League will hold a Tea and Food Sale on Saturday, April 14th, at Lively's.

***On Monday and Tuesday, March 12 and 13, at the Angus Theatre, you will see "The Latest From Paris." Beautiful Norma Shearer plays the part of a hard-bitten traveling saleslady who believes "that all's fair in love and business." She manages to combine the two in a way that will keep you entertained at all times.

***Rin-Tin-Tin, the favorite of old and young, will be seen at the Theatre on Wednesday and Thursday of next week in "A Race for Life." We assure our patrons that this is the very best picture Rinty has ever made.

***A comedy play entitled "Yimmy Yonson's Yob" will be presented at Angus Hall on Friday, March 16, followed by a dance.

***Remember that the W.A. of Immanuel church are holding a St. Patrick's Tea and Food Sale at the City Bakery on Saturday, March 17th, from 3 to 6 o'clock.

***The Scandinavian Ladies' Hospital Aid will hold a Tea, Coffee and Food Sale at the Swedish Lutheran church parlors, on Saturday, March 17th, from 3 to 6 o'clock.

***Theater Night at the Angus Theatre will be continued again for the first time on Wednesday, March 14th and 15th, at the Angus Theatre, you will see "The Latest From Paris." Beautiful Norma Shearer plays the part of a hard-bitten traveling saleslady who believes "that all's fair in love and business." She manages to combine the two in a way that will keep you entertained at all times.

She, "The Pioneer Scout," is a horse-racing story abounding with thrills and giving Rinty ample opportunity to display his sagacity.
